

Clean up your labels

... with potatoes and more!

Modern consumers strongly focus on wholesome, wellness and nutrition while making their food choices. Emsland Group helps you finding solutions that make your products more natural with:

- clean label potato and pea starches for sauces, ketchup, fruit fillings and chocolate desserts;
- clean label potato flakes for mashed potato, bread and snacks.

New in our product range is waxy winter barley that can be processed into beta glucan containing snacks and coating formulations that contribute to healthier life-styles.
